Re: Ann Ballard, aged 22 months

Dear Sir / madam,

I am writing to refer Ann Ballard, a 22 months baby who has 2nd degree burns to her right trunk and arm. She is being discharged today and her general condition is being improving. *require post discharge care from your centre.*

Ann Ballard lives with her <sup>single</sup> divorced mother and 4 year old brother. Ann's parents separated 4 months ago, and since then her mother <sup>has</sup> been spending alternate weekends with her father. As her mother <sup>has</sup> been facing financial crisis and social isolation. She was referred to the hospital <sup>social worker for suspected depression.</sup> Ballard might suffer from depression as she is socially isolated. Her mother needs to face financial difficulties following separation. *not necessary!!*

Ann Ballard has no ~~any~~ significant medical history. She is a healthy child. ~~But~~ Unfortunately, she had an accidental scalding with hot water, as a result she <sup>experienced</sup> 2nd degree burns to her right trunk and arm. On 16 March 2010 she was admitted to the children's Hospital. During her hospital stay, Silvazine dressings <sup>was applied</sup> to the affected area <sup>twice daily.</sup> Additionally, IV fluids for 09 hrs post admission, and shifted her to oral fluids. Prophylactic antibiotic cover and analgesia were <sup>also</sup> given. Her mother was referred to hospital social worker for her conditions.

*was given and then switched to*

Ann's conditions ~~was improving~~ <sup>has improved now and she is being discharged home today.</sup> ~~as~~ <sup>please continue</sup> daily Silvazine dressings for Ann. done. she has no ~~any~~ discharge medications. However her mother seems to be depressed so <sup>please</sup> monitor <sup>her</sup> mental state and introduce her to ~~the~~ local support groups. ~~More~~ <sup>Moreover, please arrange an</sup> ~~overly~~ <sup>appointment</sup> ~~for~~ <sup>with</sup> ~~the~~ local financial counsellor for ~~the~~ financial problems. ~~(x word)~~.

It would be greatly appreciated, if you could attend her follow-up <sup>post her</sup> discharge and also ~~monitored~~ <sup>monitor</sup> Ann and her mother condition as her mother needs ~~both~~ <sup>psychological</sup> and <sup>physical</sup> support.

Please don't hesitate to contact me if you have any <sup>queries</sup> related to Ann and her mother.

Yours faithfully,

Charge nurse

Not in case notes!  
Don't add extra!!

Repeating info is bad Writing!!

(+) = 300

\* Could get lesser score in real test if major inaccuracies in RED are not improved!!
