22 March 2010

Re: Ann Ballard, aged 22

Dear Sir/Madam,

Ann was admitted at the children's hospital on 16 March 2010, with the diagnosis of 2nd degree burns to right trunk and arm following accidental scalding with hot water. She is being discharged today and it would be greatly appreciated if you could follow up her before discharge.

provide her post discharge care.

Ann lives with her mother and 4 years-old brother as her father and mother was separated from 4 months ago. Since that time, Ann's mother has been facing financial difficulties, also she has been socially isolated from her parents and friends. She was referred to a hospital social worker for suspected depression.

odd english!

During hospitalization, Ann's affected area was dressed with Silvazine two times a day daily. Prophylactic antibiotic and analgesic were provide to relieve the pain. In addition, intravenous fluids was given for 24 hours and then encourage oral fluids were encouraged. Beside that, she has no significant history of allergy, medication and diseases.

odd english!

It would be greatly appreciated if you could monitor her mother's mental state and engage her into local support groups such as mothers' group, activities and local child care centre. kindly, make the appointment with the local financial counsellor for
