Re: Aari Vanov, aged 69 years

Dear Ms. Jolly

I am writing to refer Mr. Vanov who was admitted ~~to~~ our resident ~~Nursing Home~~ ^{from you} due to acopia and he requires your regular visits ^{for} music ~~recession~~ ^{therapy}.

on admission day, Mr. Vanov presented with poor memory, unshaven, unshelved which indicated acopia. He hit his co-stayer and was also kept in a single room. In addition, he rejected care given by our female staff. Therefore male staff care was provided for him. We had also started behavioral management program for him which was prescribed by general practitioner due to his self neglected behaviour. The management program was making good progress on him. He ate fruits and vegetables due to salt restriction and he also reduced his aggression.

After ~~one~~ ^{one} week his condition worsened. He avoided weekly sing a long and ~~sit~~ ^{sit} alone in a lounge. His verbal aggression increased due to distraction ~~made~~ ^{made} by the opera in radio. He shouted at his fellow residents ~~and~~ ^{and} ~~was~~ ^{was} ~~sitting~~ ^{sitting} alone in ~~the~~ ^{the} garden with his radio.

Today his aggression level has reduced and he is also calm. He seems cheered up due to visit by his old male friend. Further more
