Re: 22 months old infant patient,

Thank you for seeing Miss Ann Ballard an infant patient of our children's hospital who is being discharged home today and needs your facilities at your child health centre.

Learn singular/plural of "who" clause!

Ann She was admitted on 16 March 2010 in our hospital with 2nd degree burns to her right trunk and arm due to accidental scalding with hot water.

According to her social background about her family members, she lives with her mother and 4 year old brother. Her father and mother separated since 4 months ago; as result, her financial background is poor and facing difficulties. Her family relies on public transport and they have few friends because they are socially isolated. Ann and her brother spend their weekends with their father alternately.

oral fluids were given. For medications antibiotic prophylactic and analgesia were given during her hospital stay.

After 6 days of hospital stay, Ann's burn area started healing well, so she is being discharged today. Only daily silvazine dressings have been recommended, but no post discharge medications have been prescribed.

Ann's mother's mental state should be monitored and please encourage her to participate with social group activities and do activities with the society at social childcare centre. Her family is facing financial problems due to her parents' separation. Financial problems can be managed.

Also, please arrange a meeting with the financial counsellor for her financial issues.

Thank you for taking time to read the letter. If you have any queries, please do not hesitate to contact us.

Yours Sincerely
