Dear Doctor Goldman,

Re: ~~Master~~ Jamie Brown, aged 5 years

Sold fashion; Avoid!!

① Thank you for reviewing ~~Master~~ ^{Jamie} Brown, who has Post-streptococcal nephritis with early renal failure, for further evaluation and management.

25/2/10??

③ On 18.03.10, ~~Master~~ ^{Jamie's} Brown's mother reported that he had experienced brown urine for 4 days and had become tired and lethargic. His blood pressure was normal. His ENT examination revealed tonsillar hypertrophy and urinalysis showed macroscopic hematuria. He was then advised to drink plenty of fluids. ~~He~~ ^④ was again assessed 2 days later, where he was found to be asymptomatic. However, his blood pressure was elevated. Also, the investigations showed slightly elevated urea and creatinine, elevated ASOT +++ and MSU with 4 x 10⁶ RBC of renal origin. His FBE was normal.

Today's visit should be at the end!!

On 25/2/10, Jamie

② ~~Three weeks before Master Brown's current condition~~, he had visited my office due to fever, sore throat, irritability and hoarse voice. Upon his examination, large infected tonsils with exudate and tender cervical lymphadenopathy were discovered. He was then treated for tonsillitis with Penicillin V for a duration of 7 days.
